**Official Production Portal:** Hosted on Vercel Cloud `https://electifysrm.vercel.app`

# Class Tutor Cohort Supervision Manual

**Class Tutor Responsibilities:** Supervise assigned class sections, monitor real-time student registration progress, authorize in-person student password resets, and export class rosters for Department records.

1. Login — Faculty Credentials → 2. Pick Session — Academic Term → 3. Switch Class — Multi-Section → 4. Track Turnout — Unregistered Filter → 5. Export PDF — HOD Roster

## 1. Faculty Login & Workspace Selection

### Step 1 Accessing the Faculty Portal

1. Visit: https://electifysrm.vercel.app/login.
2. Sign in using your faculty email (e.g., `angelb1@srmist.edu.in`) and password: `Electify@2026`.
3. On `/faculty/session-select`, choose your active academic term (e.g. *2025–2026 Even Semester*).

## 2. Section Switching & Multi-Section Oversight

### Step 2 Managing Multiple Assigned Classes

Electify supports tutors managing multiple classes across programmes:

- **Active Section Switcher:** Located at the top right of the faculty header. Click the pill to toggle between assigned classes (e.g., `CSE-AIML Section A` ↔ `CSE-AIML Section B`).
- **Claiming New Sections:** If you are newly assigned to a class, open **Assign Sections** (`/faculty/assign-sections`), choose your section from the university catalogue, and click **Claim Section**.

## 3. Live Class Roster & Student Tracking

**Step 3** **Reviewing Submission Status in Real Time**

1. Navigate to **Section Roster** ( `/faculty/section` ).
2. The roster displays all students in your active section with their:
    - Register Number, Full Name, and SRM Email
    - Registration Badge: **CONFIRMED** (Green), **IN PROGRESS** (Amber), or **UNREGISTERED** (Red)
    - Enrolled Elective Course Title and exact submission timestamp
3. Click the **"Unregistered Only"** filter switch to immediately generate a call-out list of students who have not yet submitted choices before the deadline.

## 4. Authorizing Student Password & PIN Resets

**Step 4** **In-Person Verification & PIN Reset Authorization**

To eliminate credential theft during competitive registration windows, students cannot self-reset passwords online. Tutors authorize resets directly:

1. Open **Students** ( `/faculty/students` ) in the faculty sidebar.
2. Search for the student by Register Number or Name.
3. Verify the student's physical identity in your department.
4. Click **Authorize PIN Reset**. The system generates a temporary 15-minute token allowing the student to sign in and set a new password.

## 5. Exporting Verified Class Reports

**Step 5** **Generating Official Section Rosters**

1. Navigate to **Tutor Reports** ( `/faculty/tutor-reports` ).
2. Review section statistics: overall turnout percentage and elective seat distribution.
3. Click **Export Class List (PDF)** to download an official formatted report with student names, register numbers, course allocations, and timestamps ready for Head of Department sign-off.
