Electify — Smart Elective Registration Platform

STUDENT EDITION

Official Production Portal: Hosted on Vercel Cloud `https://electifysrm.vercel.app`

Student Elective Registration Guide

Zero-Waitlist Fair Registration: Electify guarantees a 100% fair course registration system powered by atomic database row-locking. Seats are awarded in real time with instant verified receipt generation.

1. Sign In	→	2. Explore	→	3. Countdown	→	4. Lock Seat	→	5. Receipt PDF
SRM Reg No.		Read Syllabi		Server Time Sync		1-Click Submit		ELC-2026 Code

1. Access & Sign-In

Step 1 Logging In to the Student Portal

1. Visit the official portal: https://electifysrm.vercel.app/login.
2. Enter your **SRM Register Number** (e.g., `RA2411003010001`) or official SRM student email.
3. Enter your password and click **Sign in to Electify**.

Security Protection: Single-Session Sentinel
Electify permits strictly **one active session per student**. If you log in on a friend's phone or open another browser tab, your prior session is instantly invalidated. This prevents automated bot-sniping and unauthorized credential sharing.

2. Browsing Subjects Before the Window Opens

Step 2 Subject Explorer & Syllabus Preview Mode

Before registration begins, research your course options thoroughly:

- Navigate to **Subjects** (`/dashboard/subjects`) in the left sidebar.
- Filter by Department, Course Category (Professional Elective, Open Elective), and Credits.
- Review the complete syllabus outline, course objectives, and prerequisite requirements.
- View the maximum total seat capacity for each offering.

Preparation Tip: The Subject Explorer is read-only. Make a list of your 1st, 2nd, and 3rd choices beforehand so you can register within seconds when the timer expires.

3. Live Registration & Live Seat Counters

Step 3 Synchronized Countdown Clock

On `/countdown`, the timer displays the exact time remaining until the registration window unlocks. The clock is **synchronized with the university time server** to ensure all students start simultaneously regardless of device clock differences.

Step 4 Selecting Elective Baskets & Atomic Locking

1. When the clock reaches zero, click **Enter Registration** (or visit `/dashboard/electives`).
2. Courses are organized into distinct **Elective Baskets** (e.g. *Basket A — Advanced AI*).
3. Check the live seat availability meters:

REAL-TIME SEAT INDICATORS — LIVE POSTGRESQL SYNC

🟢 45 / 60 Available	🟡 4 / 60 Remaining	🔴 0 / 60 Remaining
Seats open	Filling quickly	Course full

4. Select your preferred subject in each required basket and click **Submit Registration**.
5. The server executes an **atomic row-locking transaction** (`SELECT ... FOR UPDATE`). If the seat is available, it is permanently awarded to your Register Number.

4. Confirmation & Official PDF Receipt

Step 5 Instant Official Receipt & Download

Upon successful submission, you are routed directly to `/dashboard/success` with your official registration confirmation:

OFFICIAL ELECTIVE RECEIPT ID

ELC-2026-EVEN-00421

Issued by SRM Institute of Science and Technology · Tamper-Evident Record

Click **Download PDF Receipt** to save your encrypted verification document for verification by your Class Tutor.

5. Student Troubleshooting Matrix

Issue Faced	Instant Resolution
Forgot Password / Locked Out	Students cannot self-reset passwords online. Approach your **Class Tutor** in person. They will verify your identity and generate a 15-minute PIN reset token.
Selected course became full	Another student confirmed the final seat milliseconds earlier. Choose an alternative elective in that basket and click Submit immediately.
Can I change my choices?	If the Course Coordinator enabled *"Allow Modifications"* and the window is still open, visit `/dashboard/electives` to update and receive a re-stamped receipt.
