Class Tutor Cohort Supervision & Student Onboarding Manual

Class Tutor Responsibilities: Class Tutors onboard students by generating unique **Class Signup Codes**, supervise class rosters, monitor live registration turnout, and authorize student PIN resets.

1. Login — Faculty Credentials → 2. Generate Code — Class Signup → 3. Students Join — /join Portal → 4. Track Turnout — Live Roster → 5. Export PDF — Attendance Roster

1. Staff Login & Term Selection

Step 1 Signing In to the Faculty Portal

1. Visit: https://electifysrm.vercel.app/login.
2. Sign in using your faculty email (e.g. `angelb1@srmist.edu.in`) and password: `Electify@2026`.
3. Select the active academic term (e.g. *2025–2026 Even Semester*) on `/faculty/session-select`.

Multi-Device Access Enabled (Up to 3 Active Devices):
Class Tutors are permitted up to **3 simultaneous active devices** (e.g. laptop, mobile phone, and classroom podium). If a 4th device signs in, only the oldest device is automatically rotated out. (Students remain strictly restricted to 1 single device).

2. Generating Class Signup Codes for Your Students

Step 2 How to Onboard Your Class Section

Before registration begins, students must sign up into your section. You generate their class code:

1. Make sure your active class is selected in the top bar section switcher (e.g. `Section A`).
2. Navigate to **Section Roster** (`/faculty/section`) or **Students** (`/faculty/students`).
3. Click **Generate Class Signup Code**.
4. Configure limits:
   - **Max Students:** Set to your class strength (e.g. 60 students).
   - **Expiry:** Set the onboarding deadline.
5. Click **Generate Code**. The system produces an official code, e.g., `EFCL-8921`.
6. Share this code with your students along with the link: `https://electifysrm.vercel.app/join`.

How Students Use Your Code:
Students visit `https://electifysrm.vercel.app/join`, enter your code `EFCL-8921`, and the portal automatically binds their account to your section, department, and degree without manual data entry.

3. Live Class Roster & Turnout Monitoring

Step 3 **Tracking Student Registration Progress**

1. Open **Section Roster** (`/faculty/section`).
2. Review real-time enrollment badges:
   - **CONFIRMED:** Student has locked their elective and received receipt.
   - **IN PROGRESS:** Student is active in portal but hasn't finalized.
   - **UNREGISTERED:** Student has not yet picked electives.
3. Click the **"Unregistered Only"** filter switch to immediately isolate students who require follow-up reminders.

4. Authorizing Student Password / PIN Resets

Step 4 **In-Person Identity Verification**

If a student forgets their password, they cannot reset it online (preventing credential takeover). As their tutor:

1. Open **Students** (`/faculty/students`).
2. Search for the student by their Register Number (e.g. `RA2411...`).
3. Verify their physical identity in class.
4. Click **Authorize PIN Reset**. The system issues a 15-minute token allowing the student to set a new password securely.

5. Exporting Official Section Reports

Step 5 **Export Verified Class Attendance List**

1. Navigate to **Tutor Reports** (`/faculty/tutor-reports`).
2. Click **Export Class List (PDF)** to download an official formatted report with student register numbers, names, elective allotments, and timestamps for submission to the HOD.
