Course Coordinator Master Operations Manual

Course Coordinator Responsibilities: Onboard Class Tutors via role-based invite codes, configure elective catalogues and capacities, schedule registration windows, monitor live event surveillance, and export master reports.

1. Invite Tutors (Staff Codes) → 2. Setup Electives (Baskets & Caps) → 3. Schedule (Window Timers) → 4. Live Monitor (Realtime Telemetry) → 5. Audit Replay (COE Master Export)

1. Onboarding Faculty & Class Tutors

Step 1 Generating Staff Invite Codes

Course Coordinators can provision Class Tutor accounts securely via invite codes:

Multi-Device Access Enabled (Up to 3 Active Devices):
Course Coordinators, Class Tutors, and Administrators are permitted up to **3 simultaneous active devices** (laptop, mobile phone, office workstation). (Students remain strictly restricted to 1 active device).

1. Sign in at: https://electifysrm.vercel.app/login (e.g. `sabenabanu@srmist.edu.in` / `Electify@2026`).
2. Navigate to **Invite Codes** (`/faculty/invites`).
3. Click **Generate Staff Invite**:
   - Select Role: **Class Tutor** (Code prefix: `EFCT-`).
   - Assign Department: (e.g. *Computing Technologies*).
   - Set maximum uses and expiration date.
4. Share the invite code with newly appointed tutors to allow them to create their official staff credentials.

2. Electives Catalogue & Basket Capacities

Step 2 Creating Electives and Seat Limits

1. Open **Electives Management** (`/faculty/electives`).
2. Click **Create New Elective**: Subject Code (e.g. `21CSE301T`), Title, Offering Department, and Credits.
3. Set **Maximum Seat Capacity** (e.g. 60 seats).
4. Group electives into **Baskets** (e.g., *Professional Elective III*). Students must choose exactly one subject per basket.

3. Window Scheduling & Auto-Close Safeguards

Step 3 **Setting Opening and Closing Timelines**

1. Navigate to **Window Control** (`/faculty/window`).
2. Set **Opening Date & Time** and **Closing Date & Time**.
3. Enable **Auto-Close**: The system closes registration precisely at the deadline without requiring human intervention.
4. Toggle **Allow Modifications** to determine if students can change choices while the window is active.
5. Click **Publish & Schedule Event**.

4. Live Surveillance & Real-Time Telemetry

Step 4 **Event Monitoring & Emergency Controls**

During the live event, open **Live Monitor** (`/faculty/monitor`):

- **Concurrent Online Students:** Live pulse of students currently active in the portal.
- **Real-Time Seat Meters:** Dynamic capacity gauges showing seats filling per course.
- **Emergency Pause:** Click *Pause Window* if an unexpected institutional pause is needed; existing seat claims are preserved safely.

5. Registration Replay & COE Master Reports

Step 5 **Auditing Timeline & Master Export**

1. **Registration Replay (`/faculty/replay`):** Scrub through the timeline slider to audit the registration sequence down to the millisecond.
2. **Master Departmental Reports (`/faculty/reports`):** Export comprehensive Excel and PDF course rosters formatted for the Controller of Examinations (COE).
