Strict Single-Device Policy (Laptop OR Phone Only):
Students are strictly restricted to **one active device at a time**. You may log in from either your laptop OR your phone, but never both simultaneously. Signing in on a second device or new browser window immediately revokes and signs out your earlier device to ensure fair, anti-tamper elective registration.

3. Exploring Electives & Live Registration

Step 3 Subject Explorer & Live Seat Counters

- **Subject Explorer (`/dashboard/subjects`):** Read full course syllabi, credit structures, and prerequisites *before* the registration countdown ends.
- **Live Countdown (`/countdown`):** Server-synchronized NTP clock ticks down to zero.
- **Selecting & Locking Seats (`/dashboard/electives`):** Select your choice from each basket:

  🟢 45 / 60 Available | 🟡 4 / 60 Remaining | 🔴 0 / 60 Full

- Click **Submit Registration**. An atomic database row lock (`SELECT ... FOR UPDATE`) guarantees seats cannot be overbooked.

4. Confirmation & Official PDF Receipt

Step 4 Download Official PDF Receipt

Click **Download PDF Receipt** on `/dashboard/success` to keep an official record for your Class Tutor.
