Course Coordinator User Manual & System Administration

Course Coordinator Responsibilities: Coordinators manage elective offerings, define course capacities and baskets, schedule registration windows, monitor real-time event surveillance, and export master university audit reports.

1. Coordinator Login & Year Server Management

STEP 1

Accessing Academic Year Isolation

1. Sign in at `http://localhost:3000/login` with your coordinator email (e.g., `sabenabanu@srmist.edu.in`) and password: `Electify@2026`.
2. Navigate to **Academic Sessions** (`/faculty/academic-sessions`).
3. Electify operates on an **Academic Year Server Model**: registrations, cohorts, and metrics for 2026 are completely isolated from 2025 records.

2. Electives Catalogue & Seat Basket Configuration

STEP 2

Creating Electives & Setting Capacities

1. Navigate to **Electives Management** (`/faculty/electives`).
2. Click **Create New Elective**:
   - Enter Subject Code (e.g. `21CSE301T`) and Full Course Name.
   - Assign Offering Department and Credit weightage.
   - Set **Maximum Seat Capacity** (e.g., 60 seats).
3. Group electives into **Baskets** (e.g. *Professional Elective III*). Students must choose exactly one subject per basket.

3. Scheduling Registration Windows & Automation

STEP 3 **Window Scheduler & Auto-Close**

1. Navigate to **Window Control** (`/faculty/window`).
2. Configure:
   - **Opens At:** Precise start date and time.
   - **Closes At:** Strict submission deadline.
   - **Auto-Close (Recommended):** Automatically terminates submissions at the deadline without manual supervisor action.
   - **Allow Editing:** Toggle whether students can modify choices while the window is live.
3. Click **Publish & Schedule Event**.

4. Live Event Surveillance Monitor

STEP 4 **Real-time Event Telemetry**

During a live registration event, open `/faculty/monitor` to observe live telemetry:

- **Online Student Heartbeats:** Real-time count of active students inside the portal.
- **Real-time Seat Gauges:** Dynamic visual bars displaying seat depletion rates per subject.
- **Submission Velocity:** Registrations processed per minute.
- **Emergency Pause:** If an unforeseen issue arises, click *Pause Window* to freeze all transactions safely without losing existing allocations.

5. Registration Replay & Departmental Master Reports

STEP 5 **Audit Replay & Reports**

1. **Registration Replay (`/faculty/replay`):** Scrub through an interactive timeline to audit every submission down to the millisecond, verifying first-come-first-served fairness.
2. **Master Departmental Reports (`/faculty/reports`):** Export comprehensive Excel and PDF course rosters formatted for the Controller of Examinations (COE).
